Professional Summary

Detail-oriented Python Developer with a strong foundation in backend and full-stack web development using Django, FastAPI, and React. Experienced in building RESTful APIs, integrating databases, and deploying scalable applications. Adept at writing clean, maintainable code and continuously improving technical skills through hands-on projects and real-world applications.

Technical Skills

Languages: Python, JavaScript, SQL, HTML5, CSS3, Bash

Frameworks & Libraries: Django, Django REST Framework, FastAPI, Flask, React

Databases: PostgreSQL, MySQL, SQLite

Tools & Platforms: Git, Docker, Redis, Jenkins, CI/CD

Other: RESTful APIs, Web Scraping, Automation, AI/ML API Integration

Projects

Django-React Full Stack Web Application

GitHub: <https://github.com/dev-kelz/Django-React-Full-Stack-App-main>

Live Demo: <https://django-react-full-stack-app-main-production-fb50.up.railway.app>

- Designed and developed a full-stack web application using Django REST Framework for the backend and React for the frontend.
 - Implemented secure user authentication and authorization, REST API integration, and database management using PostgreSQL.
 - Designed relational database schemas in PostgreSQL and built reusable API endpoints, handling state management on the frontend for a responsive user experience.
 - Deployed the application to a cloud platform, ensuring scalability and production readiness.
-

Professional Experience

Networking Intern

University of Port Harcourt – Port Harcourt, Nigeria

July 2024 – December 2024 (On-site)

- Assisted in configuring and maintaining network systems, improving reliability and connectivity.
 - Supported troubleshooting of hardware and software issues, strengthening problem-solving and technical support skills.
 - Collaborated with IT staff, gaining exposure to enterprise systems and operational best practices.
-

Education

Bachelor of Science (B.Sc.) in Computer Science

University of Port Harcourt

2020 – 2025

Training & Certifications

Certificate of Training – Website Development

Obaro Stanley Foundation

- Completed hands-on training in website development, covering HTML, CSS, JavaScript, and backend fundamentals.
 - Built responsive web pages and implemented basic client-server interactions.
-

Additional Information

- Strong understanding of software development fundamentals and backend architecture
 - Familiar with Agile development practices
 - Committed to continuous learning and professional growth
-

Interests

Chess – enhances strategic thinking, analytical skills, and problem-solving ability
